

Vigilant NetView™

Video Surveillance Center

Vigilant NetView™

Protecting your core business assets is our specialty. Vigilant NetView™ Video Surveillance Center is a fully digital management solution providing a mature Virtual Matrix, Video-wall operation and powerful event handling. This state-of-the-art solution is more than a full replacement of the legacy analog matrices. It is a turn-key solution for the surveillance center.

Vigilant NetView provides enhanced video handling accuracy, flexibility and alarms management. Security personnel gain improved decision-making capabilities, resulting in a higher efficiency, with less probability for human error. It has been specifically designed to achieve higher security levels in mission-critical, multi-users environments.

At once flexible, robust and reliable, Vigilant NetView provides multiple monitor superior capabilities and may be positioned anywhere in the network.

Vigilant NetView is fully compatible with Vigilant's ViewStation administrator & query station, NetStream/NetVR IP video servers, SmartGuard content analysis, as well as all Vigilant's DVR solutions.

Vigilant NetView™ Highlights

- > End-to-end, fully-digital security and surveillance system
- > Instant access to live and recorded video from any camera on any monitor
- > Connect and control multiple monitors over the network
- > Displays 1, 4, 9 and 16 split video screens over multiple monitors
- > Pro-active real-time alarm capabilities
- > Virtual matrix with on-screen multi features menu
- > Activate sequence of multiple commands upon event or time based
- > Joystick controls - forward playback - reverse playback - PTZ
- > Easily scalable to support unlimited input channels
- > Replaces or complements existing analog infrastructure

Key Benefits

- > Proactive multiple alarms to overcome human error
- > Dispatch recommended actions over the network
- > Lowering operation and labor costs
- > Unlimited video/audio channels support
- > Instant access to any channel, live or playback
- > Multiple monitors with split screen capability
- > Joystick, PC mouse and standard CCTV keyboard operated
- > Pre-define and link cameras to specific physical location

Target Markets

- > Traffic and transportation hubs
- > Gaming & casinos
- > City centers & public spaces
- > Correctional facilities
- > Finance & banking
- > Logistics

About Vigilant

Vigilant Technology is a worldwide leading provider of intelligent IP surveillance and security solutions. The company offers turn-key solutions including video servers, DVR/NVRs, intelligent real-time video content analysis and sophisticated, proactive control center solutions. Vigilant has a worldwide customer base and is globally supporting tens of thousands of cameras in airports, governmental sites, financial institutions, correctional facilities, casinos, city centers, and more.
